Evaluation of teachers

- ▶ citation index
 - ▶ monopolization of calculating parameters
 - ▶ "advisory" firms
 - ▶ decrease in quality of publications
 - ▶ Plagiarism
 - ▶ e-publications are not calculated correctly!

Financial aspects of quality

- ▶ Universities are interested in a number of contractors, not quality
- ▶ Budget financing reduce the possibility for students mobility
- ▶ Scholarship system should be changed to grant system

Internal problems of quality

- ▶ Workload of teachers
- ▶ A lot of “paper work”
- ▶ Ineffective use of teacher’s hours

Thank you!
